

I'm a resistance fighter™

Nancy Wildfeir-Field
President, GBCHealth

Nancy Wildfeir-Field

Combating antimicrobial resistance (AMR)

GBCHealth, as a mobilizer of business action on health, sees tremendous opportunity for the private sector to join the fight against AMR. AMR is so complex, it cannot be adequately addressed by any single actor. A resolute and coordinated global response is needed to establish well-regulated health and food systems, provide investments in critical health innovations and promote access, surveillance and effective stewardship. GBCHealth is committed to ensuring that businesses have the tools and knowledge necessary to combat AMR. **Because all of us need to be resistance fighters.**
